

# Flex-A-Fill® Mini Melter System

Flex-A-Fill Mini Melter 30

## A Complete Crack Sealing System

Flex-A-Fill Mini Melter 10

*“The ideal solution for small pavement preservation projects.”*

The Flex-A-Fill crack sealing system includes everything you need for an effective crack sealing operation.

The Flex-A-Fill Mini Melter 10 is a 10 gallon self contained, hand agitated melter applicator that melts sealant for application in approximately twenty minutes. The wheeled melter easily follows random cracks for efficient crack sealing.

The Flex-A-Fill Mini Melter 30 is ideal when sealant demands are larger. The Flex-A-Fill Mini Melter 30 is a 30 gallon self contained, air jacketed hand agitated unit requiring the use of a wheeled pour pot. The Flex-A-Fill Mini Melter 30 can be used in conjunction with the Mini Melter 10 as a refilling mechanism. Using the Flex-A-Fill Mini Melters for heating and applying Flex-A-Fill sealant is fast and easy.

**Flex-A-Fill** sealant is a hot-applied polymer modified asphalt product used to fill cracks in asphalt concrete or Portland cement concrete pavements in moderate climates. Flex-A-Fill is supplied in 30 pound boxes, which when melted and properly applied forms an adhesive and flexible compound. Flex-A-Fill also resists cracking in the winter and is highly resistant to tracking or pick-up by vehicle tires at warm summer temperatures.
